

KLOVE serves me as a resident in a local community, please do not take it off the air. It is uplifting, loving, caring, beautiful, (I could go on), it is the greatest radio station around. I believe it is in the public interest because people these days need a positive outreach, and a positive outlook, there are too many negative things happening in the world today, KLOVE provides positive feeding for us. Please continue to have KLOVE on the radio! I love it! And so do many others!
